EXPERIENCE

Project management and Leadership

college

2021 - 2023   Chandigarh

Successfully orchestrated and led a series of project activities, leveraging expert knowledge to drive fruitful outcomes.

- Leveraged an adept understanding of technical concepts to optimize project processes and align outcomes with goals.

Technical Expertise

College

2023   Chandigarh

Exhibited exceptional technical prowess, yielding substantial improvements across various project activities.

- Acted as a profound source of insight, employing deep domain knowledge to enhance project deliverables.

OBJECTIVE

Final-year Computer Science student with a strong focus on frontend development. Proficient in HTML, CSS, and JavaScript with a keen eye for user-centric design. Experience working in React.js,nodeJS. Eager to leverage my skills and creativity to create seamless and visually appealing web experiences. Passionate about learning and development with a desire to apply skills in your company. Eager to tackle more complex problems and to find way to maximize user efficiency.

PROJECTS

React-Portfolio   2023

Chandigarh

Developed a responsive portfolio website utilizing cutting-edge technologies including React.js and Node.js. Implemented a robust front-end architecture using React, creating seamless user interfaces and interactive components. Leveraged React's component-based structure to ensure scalability and maintainability of the user interface.

- Utilized Visual Studio as the primary integrated development environment (IDE) for code editing, debugging, and version control.

ReadCycle (ongoing)   2023

Chandigarh

ReadCycle is a E-commerce website using user can buy and sell their old books.

- Developed front-end using HTML,CSS,JavaSCript,BOOTSTRAP and backend using JAVA,Springboot,MongoDB.
- It consists a user-friendly interface.
- I've completed the designing and developed a front-end and back-end is still ongoing.
- Check out in my github account https://github.com/Lamu-21/ReadCycle

Internal marks assessment system   2022

Chandigarh

Collaborated with a team to design and develop an automated internal marks assessment system.

- Developed front-end using HTML,JavaScript,CSS,BOOTSTRAP and back-end using SQL,MySQL,php using Xampp SERVER.
- Designed user-friendly interfaces for faculty to input and evaluate student marks. Integrated data validation checks to ensure accuracy and consistency of entered marks.
- Delivered training sessions to faculty, facilitating smooth adoption of the system. Improved emciency by reducing manual assessment, positively impacting student experience

Solar-animation   Date period

Caiuá, Brazil

Develooped using HTML,CSS,JavaScript. This project shows the solarsystem and the planets revolving around a sun in a website.

- Its is simple fun project and can be used for study material.
- Link for the project https://lamu-21.github.io/Solar-animation/
